VITAL SERVICES FOR PEACETIME DISASTERS

Civil emergency planning in Canada is the responsibility of municipal, provincial and federal governments

for...

- developing measures which will assist Canadians to survive nuclear attack on North America
- developing measures for the continuity of essential government at all levels so that leadership, guidance and direction will be available in war;
- developing measures for the wartime production, distribution and use of the nation's resources.

and...

to plan for and provide assistance in the event of peace-time disasters such as hurricanes, floods, earthquakes, explosions and major fires.
